Joel Prashanth

Visakhapatnam, AP | 8143825034 | LinkedIn

SUMMARY

Full-stack software developer with 2 years of experience and a master's in Robotics & Automation Engineering. Proficient in developing scalable applications and integrating software with hardware, driving innovative solutions. Passionate about leveraging technology to solve real-world challenges.

SKILLS

- **Technical skills:**
  - **Programming Languages:** Python, JavaScript, C++
  - **Frameworks & Libraries:** Angular, Django, Express, Tailwind CSS, ROS, OpenCV, YOLOv3
  - **Tools & Protocols:** VS-Code, Git, Jira, Docker, Rabbit-MQ, MQTT, SQL
  - **Databases:** PostgreSQL, MongoDB

EXPERIENCE

robis – Motherson: Motherson Group **Chennai, TN**
July 2023 - present

Senior Engineer

- **Developed Robot Control User Interface:** Designed and implemented an intuitive and scalable UI for controlling robots, addressing challenges in usability and scalability to enhance operator efficiency. Developed a warehouse fleet management UI using ROS web tools and web technologies (HTML, CSS, JS, Angular). Integrated features like localization, navigation, and map management to streamline warehouse operations.
- **User Management Interface for Fleet Management System:** Redesigned UI and backend integration to strengthen application security and improve usability for a diverse user base a user management module to simplify role-based access controls, addressing critical security vulnerabilities and enhancing overall system reliability.
- **Middleware for Asset Tracking Application:** Built robust middleware solutions with advanced communication protocols, ensuring seamless integration between tracking devices and backend systems to enhance operational reliability. Created middleware for BLE-based asset tracking, addressing signal interference issues to enhance reliability and meet customer requirements
- **IoT Research and Vendor Engagement:** Conducted in-depth research on IoT technologies, identifying and implementing cutting-edge solutions tailored to enhance tracking systems for improved operational efficiency.

Post Graduate Engineer Trainee

- **Collision Avoidance for AMRs:** Integrated depth camera technology to implement collision avoidance, enhancing operational reliability and ensuring safer navigation in dynamic environments. Implemented obstacle detection using Intel RealSense D435i to enhance robot navigation and reduce operational errors

EDUCATION

- **Karunya Institute of Technology & Sciences** **Coimbatore, TN**
  [M.Tech Robotics & Automation**]** CGPA 8.5

- **Gandhi Institute of Technology & Management** **Visakhapatnam, AP**
  [B.Tech Electronics & Communication**]** CGPA 7.9
